

# Allied's Chisel Paste

A superior hydraulic hammer and demolition tool lubricant

# Genuine Allied Chisel Paste— the best hammer and tool lubricant.

Allied Construction Products, LLC recommends daily hammer maintenance and inspection by the hammer/carrier operator. Although both are important, lubrication with chisel paste is the key to extending hammer tool and bushing life.

Hammers need to be lubricated every two (2) hours under normal working conditions. More frequent lubrication may be necessary under severe applications. Lack of lubrication will cause metal-to-metal contact between the hammer's tool and the upper and lower tool bushings. This will cause the tool and the bushings to wear out more rapidly which will expose the hammer's piston and cylinder to serious damage.

In addition to the Standard Chisel Paste, Allied offers a special biodegradable chisel paste for underwater applications.

Allied Chisel Paste provides the following features and benefits:

- Contains graphite and copper solids\* that provide the highest quality demolition tool lubricant
- Provides superior wear-resistance which prolongs tool shank and tool bushing life
- Withstands high heat and pressure generated by demolition tools which extends the service period between tool bushing replacement
- Minimal lubricant consumption (compared to regular greases) which is ideal for severe applications and rental units
- Superior ability to coat and adhere to components that prevents waste from disbursement
- Compatibility with all Allied and most other automatic lubricators which cuts cost and inventory

\*Solids not included in underwater version

## Chisel Paste

### Standard Chisel Paste

Chisel Paste for Conventional Grease "Guns" and Bulk Delivery Systems

Quantities	Part Number
10 Tube Carton (14 oz. tubes)	574430
30 Tube Case (14 oz. tubes)	574431
35 lbs. Bucket	676698
120 lbs. Keg	679968

### Underwater Chisel Paste

Quantities	Part Number
10 Tube Carton (14 oz. tubes)	103011
30 Tube Case (14 oz. tubes)	103009
35 lbs. Bucket	102880
120 lbs. Keg	101925

Note: All Allied Chisel Paste products are listed by net weight.
